JPL DATA SUPPORT
Player Performance Tracking

FOR CLUBS & ACADEMIES

Run your player programme on PPT

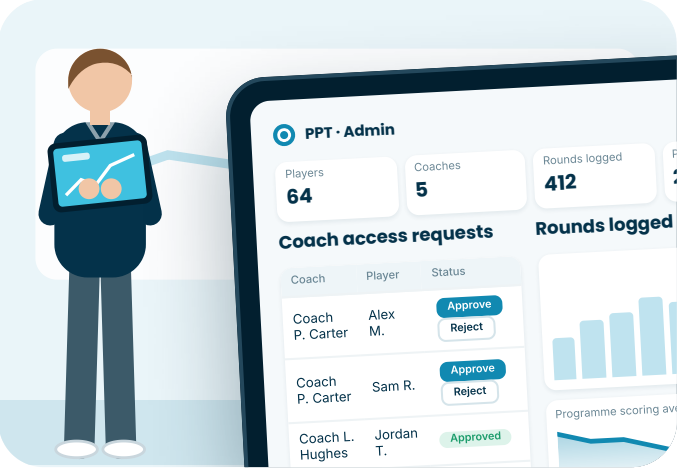
Give your coaches and players one professional platform for tracking performance — with full control over who sees what, and a clear view of your whole programme.

WHY PPT FOR YOUR CLUB

A modern programme your members will notice

PPT gives your club or academy an organised, data-led approach to player development. Players log their golf, coaches see the data and add lesson notes, and your Admin stays in control.

- One platform for all your players and coaches
- Admin approves every coach–player link
- A professional, data-led offer that sets your programme apart



WHAT YOUR CLUB GETS

Admin control

A dedicated Admin role to manage users and approve or reject coach access requests.

Programme overview

See activity across your players and coaches, and how your programme is developing.

Joined-up coaching

Every coach works from the same player history, so development stays consistent.

Stand out

Offer members something modern and measurable — a real reason to join and stay.

Records that last

Player history stays with your programme, even when coaches or squads change.

Easy for everyone

Works on phones, tablets and computers — nothing to install for players or coaches.

01 — Talk to us
We discuss your programme, players and coaches.

02 — Set up
Your club, Admin and coaches are set up on PPT.

03 — Link players
Coaches request access; your Admin approves.

04 — Track & review
Players log, coaches coach, you see progress.
