JPL DATA SUPPORT
Player Performance Tracking

PLAYER INFORMATION SHEET

Know your game. Watch it improve.

PPT is your personal golf performance tracker. Log your rounds and practice in minutes and see exactly where your shots are being won and lost.

WHAT IS PPT?

Your golf, measured

Player Performance Tracking (PPT) from JPL Data Support turns every round into useful information. Your stats build into clear charts, so you can see progress over weeks and months — not just one good or bad day.

- Log rounds and practice from your phone, tablet or computer
- See your key stats and trends at a glance
- Share your data with your coach for better lessons

WHAT YOU CAN DO

Log your rounds

Record your score and key stats — fairways, greens, putts and more — straight after you play.

Track practice

Log what you practised and for how long, so you can see whether practice time matches your needs.

See your trends

Personal dashboard with charts that show how each part of your game is changing over time.

Keep notes

Add your own notes on rounds and practice — conditions, feelings, what worked and what didn't.

Work with your coach

Approved coaches can see your data and add lesson notes, so everyone is working from the same picture.

Set your focus

Find the part of your game costing you the most shots and make it your next practice priority.

01 Sign in
Log in to your PPT player account.

02 Log a round
Enter your score and stats after you play.

03 Check your dashboard
See your averages and trends update.

04 Practise with purpose
Use the data to choose what to work on next.
